

SHTIL-KM3

SMALL-SIZE CELLULAR COMMUNICATION JAMMER

The jammer is designed to counteract cellular communication of GSM 900/1800, 3G, 4G-700, 4G/LTE, WiFi and Hi-WiFi standards in the individual limited areas.

The jammer is powered from the 220 (-33; +22) V AC line.

The jammer is supplied complete with a transmitter, 220 V power cable, and operation documents.

FEATURES

- The device does not require any additional setting before the operation.
- Small size, weight, absence of any giveaway signs allow a secret placement of the device.
- The device has a bracket for securing on vertical surfaces.
